

# SYSTEMS FOR BATHROOM AND SHOWER

Programme · Prices in Euro excl. VAT · effective January 1, 2023

# Welcome to LUX ELEMENTS

The family-owned company LUX ELEMENTS is an experienced specialist in the production of polystyrene hard foam and its further processing into secure substrates for bathrooms and wellness areas. For the sake of the environment, the company has been using a manufacturing process without the use of CFCs, HCFCs, HFCs or CO<sub>2</sub> propellant gases for more than two decades.

The product range is based on the ground-breaking invention of company founder Herbert Lux, patented in 1981: 'The Original' – a support element with a core of expanded polystyrene hard foam (EPS) and double-sided mortar coating in which a stabilising glass fibre fabric is embedded.

Starting from the construction panel in different thicknesses, the range has been constantly developed and expanded. Today, LUX ELEMENTS offers complete systems for **bathroom and shower, private spa and wellness.**

# LUX ELEMENTS® – The original

On account of its outstanding physical properties in combination with very good workability, this moisture-resistant and modern building material creates free space for planners, designers, tradesmen and industry – whether in the form of panels, blanks or ready-made products.

Hard foam support elements from LUX ELEMENTS are characterised by these advantages:

Detailed information on the material properties can be found in the brochure '**Sustainability – The Original can do**' (Download from [www.luxelements.com](http://www.luxelements.com) under *Downloads/Information brochure*)

# LUX ELEMENTS – Products

## ■ Standard products and mounting material

The LUX ELEMENTS product portfolio includes a wide range of prefabricated shaped parts and building kits made of hard foam support material as standard products with fixed dimensions or in graduated sizes. This range is complemented by matching technical system products.

Furthermore, LUX ELEMENTS offers an extensive range of assembly materials for the safe processing of hard foam support elements, including adhesives, sealing tapes and sealing fillers as well as reinforcement fabric and mounting aids.

Together, all the products form **systems** for **bathroom construction** and **design**, including flush with the floor **shower bases** as well as the design of **private and public wellness areas**.

## ■ LUX ELEMENTS®-... PLUS – Individually made to measure

Unable to find the desired versions of standard products or looking for other dimensions or a different shape? LUX ELEMENTS is able to produce bespoke individual products. These bespoke productions bear the suffix 'PLUS'.

Just ask for the article you want. After successfully checking the technical feasibility you will receive an individual quotation.

### Examples

# LUX ELEMENTS – Online

## ■ Website – Product information and download centre

Detailed information on all products and on the company and link to the online calculator (see page 7).

A clearly arranged download area contains data sheets, assembly instructions, test reports and all brochures in PDF format.

[www.luxelements.com](http://www.luxelements.com)

## ■ YouTube – Product and assembly videos

Illustrative information on many products, arranged into playlists. An extensive range of assembly videos shows you step by step how fast and simple the installation of the LUX ELEMENTS® hard foam support elements is:

# LUX ELEMENTS – Systems for bathroom and shower

## Bathroom construction

Here you will find all LUX ELEMENTS products for the construction of a bathroom. This includes the manufacture of substrates for tiles, panels and plaster on the walls and floor as well as cladding, sealing, construction and insulation. The bathroom construction is the basis for the bathroom design (from page 30).

Adjusting bath tub claddings – MONT-TOPFIX .....	28
Insertion of inspection openings – MONT-TOPREV .....	28

## Universal construction panel **ELEMENT-EL**

- Moisture-insensitive substrate
- For watertight walls in your private shower
- Reliable on wall and floor
- Creative in design
- Water-resistant and mould-resistant

### Application areas

Thin thicknesses up to 30 mm:

- 4 and 6 mm: e.g. wall levelling
- 10, 12 and 20 mm: stud frame planking
- from 30 mm: installation on dots

Thicker thicknesses from 30 to 100 mm:

- cladding
- construction
- insulating

### Mixed pallets ELEMENT-EL MIX

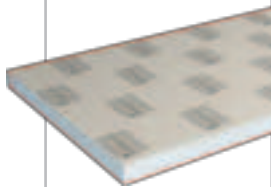

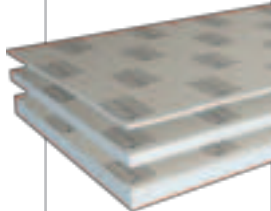

- Prefabricated mixed pallets for reduced time and effort in ordering and handling
- Fast availability due to defined standard articles
- Optimised for standard applications, e.g. for wall levelling

■ **PRODUCT SPECIFICATIONS – LUX ELEMENTS®-ELEMENT** Packaging specifications see p. 138 · Online calculator see p. 7 · \* standard-compliant according to DIN 18534

LUX ELEMENTS manufactures individual customised and special products for ELEMENT.

These include dimensions, thicknesses, shapes etc. that deviate from the standard programme. For more information see page 5.

Visit [www.luxelements.com](http://www.luxelements.com) for further information on ELEMENT.

Data sheets, assembly instructions, test certificates and additional brochures under 'Downloads', videos under 'Practice' and on YouTube.

## Easy to process on the building site

### **ELEMENT Baby Panel**

- 'One-man panel' in a half-length (1250 x 600 mm)
- Easy transport, even in confined spaces
- Fits into smaller vans and other vehicles without being cut to size
- More comfortable installation in small rooms or in attics due to its handy size
- Well suited for floor applications
- Also available as a pre-assembled **mixed pallet** (see page 12)

## Saves time with large areas

### **ELEMENT „Maxi“ Platte**

- Enlarged width (2500 x 900 mm)
- Fast installation on large areas
- Fewer element joints in the shower area
- Fewer panel joints that need to be reinforced and filled
- Also in a thicker version (50, 80, 100 mm) e.g. for quick construction of partition walls
- Also available as a pre-assembled **mixed pallet** (see page 12)

■ **PRODUCT SPECIFICATIONS – LUX ELEMENTS®-ELEMENT** Packaging specifications see p. 138 · Online calculator see p. 7 · \* standard-compliant according to DIN 18534

LUX ELEMENTS manufactures individual customised and special products for ELEMENT.

These include dimensions, thicknesses, shapes etc. that deviate from the standard programme. For more information see page 5.

Visit [www.luxelements.com](http://www.luxelements.com) for further information on ELEMENT.

Data sheets, assembly instructions, test certificates and additional brochures under 'Downloads', videos under 'Practice' and on YouTube.

### LUX ELEMENTS®-ELEMENT-SL/SQ

Standard-compliant substrate without further sealing for private shower areas according to DIN 18534

### LUX ELEMENTS®-ELEMENT-VK

Standard-compliant sealing for highly stressed areas according to DIN 18534, Part 6

## Pre-slit construction panel

### ELEMENT-SL/SQ

- Factory pre-slit hard foam support elements, vertically slit (SL) or horizontally slit (SQ)
- Flexible, fast and clean shaping of round forms, e.g. rounded partition walls

## Multi-functional construction panel

### ELEMENT-VK

- Factory-sealed construction panel (panel-type sealing element AIV-P) with vapour barrier properties
- Unites the benefits of the ELEMENT-EL universal construction panel with those of a seal
- Also available as **Baby panel** ('one-man panel') in a half-length of 1250 mm (see page 14)
- Matching mounting material e.g. sealing tapes, inner and outer corners, see page 24

## Application areas

In wet rooms where sealing or a vapour barrier is required:

- on the wall
- to laths
- to framework

## Construction panel for underfloor heating FLOOR-WH F

- Hard foam support element with milling for installing underfloor heating pipes under ceramic surfaces
- Installation and insulating element in one
- Low installation heights – ideal for renovations
- Quick and easy installation
- No screed necessary
- Short drying times during renovation
- Rapid heating of the room due to direct heat dissipation into the ceramic top covering
- Suitable for water heating with pipe diameter 16 mm
- Simple to process for adaptation to room situation

**Please note:** LUX ELEMENTS®-FLOOR-WH F is suitable for use on either wooden floors or mineral substrates such as concrete or screed. Using FLOOR-WH F 30 the fixing adhesive must always be applied over the full surface, FLOOR-WH F 50 can also be placed on dots (dots spacing ≤ 200 mm). For wooden floors, full coverage adhesion is always required.

### Fastening sets and dowels

#### FIX

Fastening sets/aids and dowels in a system for LUX-ELEMENTS® hard foam support elements:

##### Plastic hammer fix plug – FIX-KSD

- For fixing LUX ELEMENTS® hard foam support elements to an interior wall
- Drill with 8 mm drill
- Anchoring depth: 30–50 mm

##### Hammer fix plugs – FIX-FID

- Drill with 8 mm drill
- Anchoring depth: min. 50 mm
- Note: guaranteed fastening only with firm substrate for the 50 mm-long spreading part

##### Special screw plug – FIX-SD

- For connecting LUX ELEMENTS® hard foam support elements to one another
- Bit type PH3/PH2/PR2
- Note: select low speed, medium torque

##### Screw and washer fastening set – FIX-HS/-SB

- For the installation on supports

##### Hard plastic insert – ADD PRO-MAK

- For adhering to hard foam
- For the stable fastening, for example, of hose holders or fittings

### Adhesives

#### COL

Adhesives and primers in a system with LUX ELEMENTS® hard foam support elements:

##### Primer – COL-HSV

- Solvent-free dispersion primer
- E.g. for wooden substrates
- For priming absorbing substrates
- As a preliminary wash primer for smooth and sealed substrates
- As moisture protection for calcium-sulphate bonded substrates

##### Fixing adhesive – COL-AK

- Ready-mixed dry mortar
- For the attachment, levelling and adhesion of LUX ELEMENTS® hard foam support elements
- Stable, fast bonding, waterproof
- Low on chromate in accordance with EC directive 2003/53/EC

##### Mounting adhesive – COL-MK

- Moisture-curing, 1-component adhesive based on silane-terminated polymers
- For gluing of LUX ELEMENTS® hard foam support elements both to one another and to wood, wood materials, various metals, stone and ceramics
- Elastic when set, i.e. it is very well suited for stress-compensating bonding
- Also adheres in the presence of water (not underwater areas) with a sealing function
- Adheres to numerous substrates

## Sealing tapes and sealing filler **DRY**

Sealing tapes, films and tape sealers for the manufacture of watertight substrates in a system with LUX ELEMENTS® hard foam support elements:

### Sealing tape – DRY-DB

- Extremely thin, tear-resistant, elastic and vapour-permeable special tissue
- For connection sealing in conjunction with DRY-ASK sealing filler, DRY-DF sealing film or shower bases
- For wall/floor connections, inner corners, outer corners

### Sealing film – DRY-DF

- Extremely thin, tear-resistant special tissue
- For flat, alternative seals on the floor or on the wall
- Use in conjunction with DRY-DB sealing tape and DRY-ASK sealing filler for completion of the sealing at transitions and corners

### Expansion zone sleeve – DRY-DBDZM

- Expansion zone in the middle for various external pipe diameters
- Installation with DRY-ASK

### Sealing tape for ELEMENT-VK – DRY-DBV

- With sealing vapour-barrier properties
- For use on the fleece-backed ELEMENT-VK (see page 16), e.g. for sealing plate joints
- Also in the shape of inner corners DRY-DBVIE and outer corners DRY-DBVAE

### Cut protection tape – DRY-SB

- Self-adhesive, fixed-edge double-fabric tape with cut-resistant effect
- For the protection of the seal when renewing the permanently elastic service joint (e.g. silicone)

### Sealing filler – DRY-ASK

- Single-component, water-impermeable, crack-bridging and flexible sealing compound
- For large seals on LUX ELEMENTS® hard foam support elements

### Mounting aids **MONT**

Mounting aids in a system with LUX ELEMENTS® hard foam support elements:

#### **MONT-UNI and -H**

- For connecting LUX ELEMENTS® hard foam support elements to one another
- For mounting on the wall or floor
- For the extension of walls

#### **MONT-TOPFIX**

- For adjusting bath tub claddings (see TOP page 36)

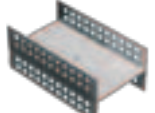

#### **MONT-TOPREV**

- For insertion of inspection openings (see TOP page 36)

# LUX ELEMENTS – Systems for bathroom and showers

## Bathroom design

Here you will find all LUX ELEMENTS products for bathroom design as a supplement to bathroom construction (from page 10). Whether claddings for installations and bath tubs or separate components such as washstands, bath tub construction kits, niches, bench seats or partition walls: all products are both design element and substrate for tiles, panels and plaster.

# Bathroom design – Content

## Installation cladding

Pipe cladding elements – TEC-KA / TEC-U .....	32
Cladding of pre-wall installation systems – TEC-VWD .....	32

## Bath surrounds

Bath tub surrounds for rectangular standard bath tubs – TOP-TR .....	34
Removable whirlpool cladding – TOP-WP .....	38

## Washstands

Washstands – LAVADO-FLOAT .....	40
---------------------------------	----

## Bath tub construction kit

Bath tub construction kit – RELAX-BW .....	42
--	----

## Niches

Niches – RELAX-NI .....	44
-------------------------	----

## Benches

Benches – RELAX-BA .....	46
--------------------------	----

## Shower partition walls

Shower partition wall – RELAX-TW .....	56
--	----

Pipe cladding elements

**TEC-KA / TEC-U**

- Cladding of conduits, pipes, joists, girders, beams and columns
- Application in corners or on straight surfaces

Cladding of pre-wall installation systems

**TEC-VWD-PS**

- Prefabricated element 1250 x 600 x 20 mm
- With 4 holes

**TEC-VWD-E**

- Element 1250 x 1200 x 20 mm
- Without holes
- In addition to VWD-PS / -P / -PV

**TEC-VWD-P**

- Prefabricated element 1250 x 1200 x 20 mm
- With 4 holes

**TEC-VWD-PV**

- Prefabricated element 1250 x 1200 x 20 mm
- With 4 holes
- With reinforcing panel installed on rear side
- Suitable for top coverings without load distribution function
- Continuous surface on the front side

Bath tub surrounds for rectangular standard bath tubs

**TOP-TR...**

- Cladding elements for standard bath tubs
- Three design variants: Cladding elements for ...
  - Surrounds for smooth and flush bath cladding – TOP-TRS
  - Surrounds with footboard – TOP-TRU
  - Surrounds with ledge – TOP-TRV
- Included MONT-TOPFIX for adjusting bath tub claddings
- Light (for TOP-TRU), inspection options and mounting aids, see page 36

■ Installation situations

For the three design variants the following installation positions are possible:

Free-standing

Niche installation

Corner installation

3-sided installation

Installation with shelf

Light for bath surrounds TOP-TRU

### TOP-TRU LI-WW 2100

- Light rope set, for TOP-TRU 2100 S

Inspection options and mounting aids

### TOP-REVR

- Made to measure maintenance openings on the head end and longitudinal side with the TRV design variant
- Arbitrary size, adaptable to the tile grid size
- Fast opening and closing due to magnetic closure

### MONT-TOPREV

- Fixing profile for mounting for maintenance openings in an arbitrary size adaptable to the tile grid size
- Simple, fast and flexible

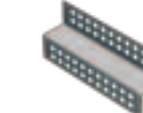

### TOP-KIT

- Complete mounting accessories for bath tub claddings

## Removable whirlpool cladding

### TOP-WP...

- With footboard and ledge
- Mounting by means of metal plug connection
- Additionally held by magnets in case of round shapes
- Easily removable for maintenance and repair
- Available as a made to measure product

#### ■ Whirlpool shapes

(All whirlpool claddings are equipped with footboard and ledge)

for rectangular and straight shapes – TOP-WP G

for quadrant shapes – TOP-WP V

for hexagonale shapes – TOP-WP S

for oval shapes – TOP-WP O

for trapezoidal shapes – TOP-WP T

#### Platform for corner installation – TOP-WP P

- Suitable for whirlpool cladding TOP-WP S 1900
- For compensation of the cavity behind the whirlpool tub
- Suitable for use as a shelf

#### LED lighting – TOP-WP LI

- LED light rope warm white
- Made-to-measure for each whirlpool cladding

#### Maintenance opening – TOP-WP REV 300

- Supplied loose, incl. appropriate milling in the whirlpool cladding

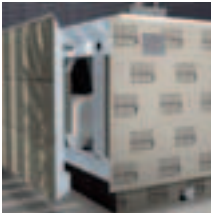

#### Mounting aids – TOP-KIT-WP

- Complete mounting accessories for whirlpool claddings

## Washstands

### LAVADO-FLOAT

- Stable suspension on two stainless steel brackets
- Can be shortened at the sides
- Installation possible on masonry and stud frames
- With channel drain: The system offers two design options due to a reversible channel cover rail
- Barrier-free: drive-under washing place
- In standard format or made to measure
- Optional: light rope, for the indirect lighting of the long side underneath the washstand, see page 41

#### ■ System components – LAVADO-FLOAT G

Stainless steel brackets – 2 pieces – 450 mm long

Washstand panel – hard foam support material, even

Mounting adhesive –  
1 cartridge COL-MK  
290 ml (see p. 22)

#### ■ System components – LAVADO-FLOAT L

Cover rail – brushed stainless steel, tileable on the rear side

Tiling aid – brushed stainless steel, for clean tiling

Height adapter – separately provided, can be cut as required

Fillers – for flush tiling up to the edge of the channel

Stainless steel brackets – 2 pieces – 450 mm long

Channel drain with click system –  
for the firm connection with separate drain support

Washstand panel – hard foam support material, with sloping recess

Drain support – clip-on technique, for drain pipe 1 1/4"

Mounting adhesive –  
1 cartridge COL-MK  
290 ml (see p. 22)

■ PRODUCT SPECIFICATIONS – LUX ELEMENTS®-LAVADO

Packaging specifications see p. 140

## Shower partition walls

### RELAX-TW

- Prefabricated shower partition wall elements in two sizes:
  - TW 900: 2500 mm high, 900 mm wide
  - TW 1200: 2500 mm high, 1200 mm wide
- Individual niche milling possible
- Optional including factory-fitted electric heating (thermostatic controllers in different versions see LUX ELEMENTS Programme 'Systems for wellness')

### Hard plastic insert – ADD PRO-MAK

- For adhering to hard foam, for the stable fastening, for example, of hose holders or fittings
- **Product specifications see**  
**LUX ELEMENTS Programme 'Systems for wellness'**

# LUX ELEMENTS – Systems for bathroom and shower

## Showers

Here you will find an extensive range of systems for the manufacture of flush with the floor showers on unfinished floors or wooden sub-constructions, plus drainage technology and accessories. Depending on the installation situation, the products for unfinished floors are divided into "in screed", "shower bases with integrated drainage technology" and "shower bases with separate drainage technology".

See page 60/61 for more information and overview of the standard products.

- 1** Combination of **shower drain element** or **floor channel drain** and **horizontal floor drain support** (DN 50), square or rectangular depending on drainage method (point or linear drainage)  
- Details point drainage + linear drainage: page 63

### ■ Installation principle, separate drainage technology

- 1** **Shower drain element** or **floor channel drain** – depending on drainage method (point or linear drainage), square or rectangular, integrated floor drain system with separate drainage technology  
- Details point drainage + linear drainage: page 63
- 2** **Drain support** – vertical (DN 40 or DN 50) or horizontal (DN 50) freely selectable depending on requirements; simple, fast and safe mounting by means of click system without gluing or screwing  
- Details: from page 130 (point drainage)  
- Details: page 134 (linear drainage)
- 3** **Substrate element** – for optimal height adjustment depending on the installation situation

### ■ Installation heights

Dimensions in mm. Measures without adhesive coating and tiles.

#### Integrated drainage technology

TUB-COMBI MQ SET 300

TUB-LINE COMBI (V) RT ...  
+ gradient element GK

#### Separate drainage technology

TUB-MQ-SET 300

TUB-LINE (V) RT ...  
+ gradient element GK

\* substrate element used depending on the installation situation

■ Properties, point drainage

**Grates/grate fitting frames** – compatible with all LUX ELEMENTS®-TUB-RA... variants, standard and design – see page 131

**Design variants** – basic shape: square, drain position: centre

**TUB-COMBI MQ SET 300**

**TUB-MQ-SET 300**

■ Properties, linear drainage

**Cover rail / Floor channel drain** – dimensions: 70 x 650 mm, 70 x 750 mm or 70 x 850 mm, depending on the size of the hard foam support element

**Special features:** reversible cover rail for two design variants (brushed stainless steel and tileable rear side), tiling aid for clean tiling, height adjustable from 5 – 17 mm using height adapter, with odour trap

**Design variants** – basic shape: rectangular

**TUB-LINE RT 900/200 (650)**

**TUB-LINE RT 900/200 (750)**

**TUB-LINE RT 1200/200 (850)**

**TUB-LINE COMBI RT 900 (650)**

**TUB-LINE COMBI RT 900 (750)**

**TUB-LINE COMBI RT 1200 (850)**

**Extended cover rail V** – dimensions: 70 x 1000 / 1200 / 1800 mm depending on the size of the hard foam support element

**Special features:** brushed stainless steel (non-reversible), can be shortened (Including accessories for the stepless adaptation of the stainless steel components), tiling aid for clean tiling, height adjustable from 5 – 17 mm using height adapter, with odour trap

**Design variants** – basic shape: rectangular

**TUB-LINE V RT 1000/200 (650)**

**TUB-LINE V RT 1200/200 (850)**

**TUB-LINE V RT 1800/200 (850)**

**TUB-LINE COMBI V RT 1000 (650)**

**TUB-LINE COMBI V RT 1200 (850)**

Hard foam shower drain element  
with integrated drainage technology  
**TUB-COMBI MQ SET 300**

- For the installation in screed floors with slope
- Combination of shower drain element and horizontal floor drain support (DN 50)
- Including loose sealing sleeve
- Extra-flat shower base height: 68 mm
- For barrier-free construction
- Second drainage level
- Drainage capacity 1,0 l/s (higher than required by standard)
- Large selection of grate fitting frames (incl. standard or design grate)

■ Installation height TUB-COMBI MQ SET 300

**Please note:** Dimensions in mm. Measures without adhesive coating and tiles.

Hard foam shower drain element  
with separate drainage technology  
**TUB-MQ-SET 300**

- For the installation in screed floors with slope
- Integrated floor drain support frame
- Including loose sealing sleeve
- Including substrate element for height adjustment
- For barrier-free construction
- Second drainage level
- Drainage technology separate, thus universally usable from page 130)

## Floor channel drain with integrated drainage technology

### TUB-LINE COMBI RT

- Combination of floor channel drain (70 x 650 mm, 70 x 750 mm or 70 x 850 mm) integrated in hard foam support element and horizontal drain support, including sealing sleeve
- Extra-flat height RT: 67 mm
- Reversible channel cover rail offers two design options
- Clean tiling with tiling aid
- Height-adjustable for optimum adaptation to covering thickness
- For barrier-free construction
- Second drainage level
- Drainage capacity: 0,52 l/s
- Also available with extended cover rail, see page 70

### Gradient elements for TUB-LINE COMBI RT

### TUB-LINE COMBI GK

- Can be fixed on one or both sides
- Simple cutting to length on the higher side for adaptation to the room situation
- Factory sealing and prefabricated gradient

#### ■ Installation height

**Please note:** Dimensions in mm. Measures without adhesive coating and tiles.

■ **PRODUCT SPECIFICATIONS – LUX ELEMENTS®-TUB-LINE COMBI RT / GK** Packaging specifications see p. 141 · Online calculator see p. 7 · \* standard-compliant according to DIN 18534

## Floor channel drain with integrated drainage technology with extended cover rail

### TUB-LINE COMBI V RT

- Combination of floor channel drain integrated in hard foam support element and horizontal drain support, including sealing sleeve
- With extended cover rail (non-reversible) and extended tiling aid made of brushed stainless steel for continuous wall-to-wall channel look in a length of 1000 or 1200 mm
- Can be shortened to fit the shower area
- Extra-flat height RT: 67 mm
- Height-adjustable for optimum adaptation to covering thickness
- For barrier-free construction
- Second drainage level
- Drainage capacity: 0,52 l/s

### Gradient elements for TUB-LINE COMBI V RT

#### TUB-LINE COMBI GK

- Can be fixed on one or both sides
- Simple cutting to length on the higher side for adaptation to the room situation
- Factory sealing and prefabricated gradient

#### ■ Installation height

**Please note:** Dimensions in mm. Measures without adhesive coating and tiles.

#### ■ Stepless adaptation

- for TUB-LINE COMBI V RT 1000 (650): up to 740 mm
- for TUB-LINE COMBI V RT 1200 (850): up to 940 mm

## ■ Systems on unfinished floors – integrated drainage technology

**LUX ELEMENTS® shower base elements**, flush with the floor and extra-flat, with integrated drainage technology (point or linear drainage) for installation on unfinished floors – ready for tiling!

### ■ General properties

	TUB-COMBI-S	TUB-PUMP-S	TUB-LINE COMBI
For barrier-free construction	■	■	■
Height-adjustable drain system	page 130	—	page 77
Factory sealing, compliant with DIN 18534	■	■	■
Integrated horizontal floor drain support	■	—	■
Grate fitting frame, factory sealed	—	—	—
Floor channel drain, factory sealed	■	—	■
Ø DN 40	■	—	—
Ø DN 50	—	■	■
Integrated and sealed-in floor drain pump	—	■	—
Prefabricated gradient	■	■	■
Extra-flat shower base height	■	—	■
Second drainage level	■	■	■
Sealing sleeve for sealing the pipe	■	—	■
Matching mounting accessories	from page 136	from page 136	from page 136
Made to measure possible	■	■	■

### ■ Installation principle, general

**1 Shower base element** – combination of extra-flat shower base and horizontal floor drain support (DN 40 or DN 50), factory sealed, square or rectangular, with one-sided or four-sided slope depending on drainage method (point or linear)

- Details design variants: page 77

- Details format variants: page 77

### ■ Installation heights

Dimensions in mm. Measures without adhesive coating and tiles.

#### Point drainage

TUB-COMBI-S

TUB-PUMP-S

#### Linear drainage

TUB-LINE COMBI

\* substrate element used depending on the installation situation

■ Properties, point drainage

**Grates/grate fitting frames** – compatible with all LUX ELEMENTS®-TUB-RA... variants, standard and design – see page 131

**Design variants** – basic shape: square or rectangular, **gradient**: four-sided, **drain position**: centre or off-centre

**Special features**: also as TUB-COMBI-S BOL with slope and shortening area, e.g. as bath tub replacement system (see page 82)

TUB-COMBI-S MQ

TUB-COMBI-S ER

TUB-COMBI-S BOL

**Grates/grate fitting frames** – two-part, reversible grate (height-adjustable) made of brushed stainless steel, tileable on rear side, allows different design variants

**Design variants** – basic shape: square or rectangular, **gradient**: four-sided, **drain position**: centre

TUB-PUMP-S MQ

TUB-PUMP-S MR

■ Properties, linear drainage

**Cover rail / Floor channel drain** – dimensions: 70 x 650 mm, 70 x 750 mm or 70 x 850 mm, depending on the size of the shower base

**Special features**: reversible cover rail for two design variants (brushed stainless steel and tileable rear side), tiling aid for clean tiling, height adjustable from 5 – 17 mm using height adapter, with odour trap

**Design variants** – basic shape: square or rectangular, **gradient**: one-sided, **drain position**: on shorter side

Flush with the floor extra-slim shower bases with integrated drainage technology

**TUB-COMBI-S**

- Combination of shower base and horizontal floor drain support (connection DN 40)
- Factory sealing and prefabricated gradient (four-sided)
- Extra-flat shower base height: 55/65 mm
- For barrier-free construction
- Second drainage level
- Good drainage capacity: 0,8 l/s resp. 48 l/min
- Large selection of grate fitting frames depending on the covering thickness (tile + adhesive) of the shower base:
  - TUB RA-A with standard grate: from a covering thickness of 9 mm
  - TUB RA-S with standard grate: from a covering thickness of 14 mm
  - TUB-RA-DC/DM/DL/DV/DS with design grate: from a covering thickness of 14 mm

Also available as shower base for the substitution of bath tubs see TUB-COMBI-S BOL, page 82

Also available with floor channel drain, see TUB-LINE COMBI, page 86

Flush with the floor extra-slim shower bases with integrated drainage technology for the substitution of bath tubs

### TUB-COMBI-S BOL

- Combination of shower base and horizontal floor drain support (connection DN 40)
- Factory sealing and prefabricated gradient (four-sided)
- Can be shortened in length through area without gradient
- Extra-flat shower base height: 55/65 mm
- For barrier-free construction
- Second drainage level
- Good drainage capacity: 0,8 l/s resp. 48 l/min

#### Accessories (optional)

- Matching benches RELAX-BA from page 46

- Shower base, can be cut to size

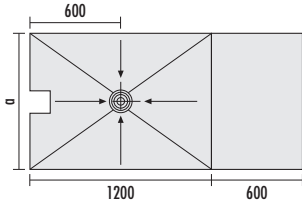

\*Please note: the fittings are to be located in the shower area

## Flush with the floor shower bases with integrated floor drain pump **TUB-PUMP**

### **TUB-PUMP-S**

- Shower base element with integrated and sealed-in floor drain pump
- Prefabricated gradient (four-sided)
- 95 mm installation height (without glue layers)
- Pumps water upwards if it cannot reach the drainpipe by gravity flow
- Suitable for the installation of a flush with the floor shower in case of renovations where the connection point to the soil stack is a few centimetres too high
- Float-controlled – switches on independent of the water inlet through the pipe
- Two-part, brushed stainless steel, reversible grate, tileable on rear side, allows different design variants
- Height-adjustable reversible grate
- Drainage capacity: 25 l/min with a height difference of 0,6 m

### **TUB-PUMP**

Also available as product variant TUB-PUMP with powerful floor drain pump with an installation height of 125 mm excluding glue layers.

For further information and technical data, see the LUX ELEMENTS®-TUB-PUMP data sheet. Price on request.

Flush with the floor extra-slim shower bases with integrated drainage technology

### TUB-LINE COMBI

- Combination of shower base with built-in and sealed floor channel drain (70 x 650 mm, 70 x 750 mm or 70 x 850 mm) and horizontal floor drain support (including odour trap)
- Factory sealing
- Prefabricated gradient (one-sided)
- Extra-flat shower base height: 67/80 mm
- Reversible channel cover rail offers two design options
- Clean tiling with tiling aid
- Height-adjustable for optimum adaptation to covering thickness
- Including sealing sleeve for sealing the pipe
- For barrier-free construction
- Second drainage level
- Drainage capacity 0,52 l/s (higher than required by standard)

Also available with point drainage, see TUB-COMBI-S, page 80

## SYSTEMS ON UNFINISHED FLOORS – SHOWERS LINEAR DRAINAGE / INTEGRATED DRAINAGE TECHNOLOGY

### ■ PRODUCT SPECIFICATIONS – LUX ELEMENTS®-TUB-LINE COMBI Packaging specifications see p. 144 · Online calculator see p. 7 · \* standard-compliant according to DIN 18534

## ■ Systems on unfinished floors – separate drainage technology

**LUX ELEMENTS® shower base elements**, flush with the floor, with separate drainage technology (point or linear drainage) for installation on unfinished floors – ready for tiling!

### ■ General properties

	TUB	TUB-LINE
For barrier-free construction	■	■
Height-adjustable drain system	page 130	page 89
Factory sealing, compliant with DIN 18534	■	■
Grate fitting frame, factory sealed	■	—
Floor channel drain, factory sealed	—	■
Prefabricated gradient, 30/45 mm	■	■
Second drainage level	■	■
Optional: matching substrate element, 55 mm	from page 114	from page 114
Click system for fastening the drain connection fitting	■	■
Separate floor drain support, vertical or horizontal	from page 130	from page 134
Extensive accessories	page 133	page 135
Matching mounting accessories	from page 136	from page 136
Made to measure possible	■	■

### ■ Installation principle, general

**1 Shower base element** – factory sealed, square or rectangular, depending on drainage method (point or linear drainage) with one-sided or four-sided gradient, integrated and sealed floor drain system

- Details design variants: page 89
- Details format variants: page 89

**2 Drain support** – vertical (DN 40 or DN 50) or horizontal (DN 50) freely selectable depending on requirements; simple, fast and safe mounting by means of click system without gluing or screwing

- Details: from page 130 (point drainage)
- Details: page 134 (linear drainage)

**3 Substrate element** – optional, to match shower base element, either universal or made to measure, for optimal height adjustment depending on the installation situation

- Details: from page 114

### ■ Installation heights, general

Dimensions in mm. Measures without adhesive coating and tiles.

Floor drain support vertical without substrate element

Floor drain support vertical with substrate element

Floor drain support horizontal with substrate element

**Please note:** The overall height when installing the vertical drain without a substrate element is reduced by the height of the substrate element (= 55 mm). For further details, please see technical data sheet TUB-(LINE) ...

■ Properties, point drainage

**Grates/grate fitting frames** – compatible with all LUX ELEMENTS®-TUB-RA... variants, standard and design – see page 131

**Design variants** – basic shape: square or rectangular, **gradient**: four-sided, **drain position**: corner, centre or off-centre

**Special features**: also as TUB-BOL with slope and shortening area, e.g. as bath tub replacement system (see page 96)

■ Properties, linear drainage

**Cover rail / Floor channel drain** – dimensions: 70 x 650 mm, 70 x 750 mm or 70 x 850 mm, depending on the size of the shower base

**Special features**: reversible cover rail for two design variants (brushed stainless steel and tileable rear side), tiling aid for clean tiling, height adjustable from 5 – 17 mm using height adapter, with odour trap

**Design variants** – basic shape: square or rectangular, **gradient**: one-sided or four-sided, **drain position**: on shorter side

**Special features**: also as TUB-LINE BOL with slope and shortening area, e.g. as bath tub replacement system (see page 106)

**Extended cover rail V** – dimensions: 70 x 800 / 900 / 1000 / 1100 / 1200 mm, depending on the size of the shower base

**Special features**: brushed stainless steel (non-reversible), can be shortened (Including accessories for the stepless adaptation of the stainless steel components), tiling aid for clean tiling, height adjustable from 5 – 17 mm using height adapter, with odour trap

**Design variants** – basic shape: square or rectangular, **gradient**: one-sided, **drain position**: on shorter side

**Special features**: also as TUB-LINE BOL V R1 with slope and shortening area, e.g. as bath tub replacement system (see page 110)

OVERVIEW STANDARD FORMATS SQUARE

Flush with the floor shower bases with separate drainage technology with point drainage

## TUB

- Factory sealing
- Sealed floor drain fitting frame
- Prefabricated gradient (four-sided)
- Shower base height: 30/45 mm
- For barrier-free construction
- Second drainage level
- Matching substrate elements with a height of 55 mm, see page 114
- Secure click system for fastening the drain connection fitting
- Suitable drain systems, see page 130–133

### ■ Installation heights

Floor drain support vertical without substrate element

Floor drain support vertical with substrate element

Floor drain support horizontal with substrate element

**Please note:** Dimensions in mm. Measures without adhesive coating and tiles. For further details, please see technical data sheet TUB.

Flush with the floor shower bases with separate drainage technology for the substitution of bath tubs

**TUB-BOL**

- Factory sealing
- Sealed floor drain fitting frame
- Prefabricated gradient (four-sided)
- Can be shortened in length through area without gradient
- Shower base height: 30/45 mm
- For barrier-free construction
- Second drainage level
- Matching substrate elements with a height of 55 mm, see page 114
- Secure click system for fastening the drain connection fitting
- Suitable drain systems, see page 130–133

Also available with floor channel drain, see TUB-LINE BOL, page 106

**Accessories (optional)**

- Matching benches RELAX-BA from page 46

- Shower base, can be cut to size
- TUB-BOL 1800/800 – can be cut to size to minimum 800 x 1200 mm  
 TUB-BOL 1800/900 – can be cut to size to minimum 900 x 1200 mm  
 TUB-BOL 1800/1000 – can be cut to size to minimum 1000 x 1200 mm

\*Please note: the fittings are to be located in the shower area

Flush with the floor shower bases  
with separate drainage technology  
including surface element

### TUB-FINISH

- Set of shower base and surface element made of white solid surface material including design grate made of solid surface material
- Ready to adhere – without time-consuming cutting to size
- Sealed floor drain fitting frame
- Factory sealing
- Prefabricated gradient (four-sided)
- Excellent hygienic properties of the surface
- Pore-free, heat-resistant surface
- Simple maintenance and care
- Durable and hard-wearing
- Shower base height: 30/45 mm
- Surface element height: 6 mm
- For barrier-free construction
- Second drainage level
- Matching substrate elements with a height of 55 mm, see page 114
- Secure click system for fastening the drain connection fitting
- Suitable drain systems, see page 130–133

Also available with floor channel drain,  
see TUB-LINE FINISH page 112

Adhesion with mounting adhesive COL-MK (see p. 22),  
consumption of COL-MK:

- Shower bases 900 x 900 mm = 1 cartridge,
- Shower bases 1200 x 900 mm = 2 cartridges,
- Shower bases 1600 x 900 mm = 3 cartridges

#### ■ Installation height (e.g. floor drain support horizontal with substrate element)

**Please note:** Dimensions in mm. Measures without adhesive coating and tiles.

Flush with the floor shower bases with separate drainage technology with sealed floor channel drain

### TUB-LINE

- Shower base element with integrated and sealed floor channel drain (70 x 650 mm, 70 x 750 mm or 70 x 850 mm)
- Factory sealing
- Prefabricated gradient (one-sided/four-sided)
- Shower base height: 30/45 mm
- Reversible channel cover rail offers two design options
- Clean tiling with tiling aid
- Height-adjustable for optimum adaptation to covering thickness
- For barrier-free construction
- Second drainage level
- Matching substrate elements with a height of 55 mm, see page 114
- Secure click system for fastening the drain connection fitting
- Suitable drain systems, see page 134

#### ■ Installation heights

\* The overall height when installing the vertical drain without a substrate element is reduced by the height of the substrate element (= 55 mm).

**Please note:** Dimensions in mm. Measures without adhesive coating and tiles. For further details, please see technical data sheet TUB-LINE.

## SYSTEMS ON UNFINISHED FLOORS – SHOWERS LINEAR DRAINAGE / SEPARATE DRAINAGE TECHNOLOGY

### ■ PRODUCT SPECIFICATIONS – LUX ELEMENTS®-TUB-LINE Q4 / Q1 Packaging specifications see p. 146 · Online calculator see p. 7 · \* standard-compliant according to DIN 18534

Flush with the floor shower bases with separate drainage technology for the substitution of bath tubs

### TUB-LINE BOL

- Shower base element with integrated and sealed floor channel drain (70 x 650 mm, 70 x 750 mm or 70 x 850 mm)
- Reversible channel cover rail offers two design options
- Factory sealing
- Prefabricated gradient (four-sided)
- Shower base height: 30/45 mm
- Clean tiling with tiling aid
- Height-adjustable for optimum adaptation to covering thickness
- Can be shortened in length through area without gradient
- For barrier-free construction
- Second drainage level
- Matching substrate elements with a height of 55 mm, see page 114
- Secure click system for fastening the drain connection fitting
- Suitable drain systems, see page 134
- Also available with extended cover rail, see page 110

Also available with point drainage, see TUB-BOL, page 96

#### Accessories (optional)

- Matching benches RELAX-BA from page 46

- Shower base, can be cut to size

\*Please note: the fittings are to be located in the shower area

Data sheets, assembly instructions, test certificates and additional brochures under 'Downloads', videos under 'Practice' and on YouTube.

Flush with the floor shower bases with separate drainage technology with extended cover rail

### TUB-LINE BOL V

- Shower base element with integrated and sealed floor channel drain
- With extended cover rail (non-reversible) and extended tiling aid made of brushed stainless steel for continuous wall-to-wall channel look
- Can be shortened to fit the shower area
- Factory sealing
- Prefabricated gradient (one-sided)
- Shower base height: 30/45 mm
- Can be shortened in length through area without gradient
- Height-adjustable for optimum adaptation to covering thickness
- For barrier-free construction
- Second drainage level
- Matching substrate elements with a height of 55 mm, see page 114
- Secure click system for fastening the drain connection fitting
- Suitable drain systems, see page 134

#### Accessories (optional)

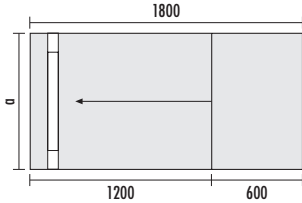

- Matching benches RELAX-BA from page 46

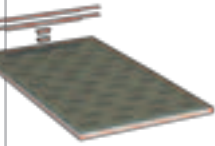

## SYSTEMS ON UNFINISHED FLOORS – SHOWERS LINEAR DRAINAGE / SEPARATE DRAINAGE TECHNOLOGY

Flush with the floor shower bases with separate drainage technology including surface element

### TUB-LINE FINISH

- Set of shower base and surface element made of white solid surface material including cover rail made of solid surface material
- Ready to adhere – without time-consuming cutting to size
- Sealed floor drain fitting frame
- Factory sealing
- Prefabricated gradient (four-sided)
- Excellent hygienic properties of the surface
- Pore-free, heat-resistant surface
- Simple maintenance and care
- Durable and hard-wearing
- Shower base height: 30/45 mm
- Surface element height: 6 mm
- For barrier-free construction
- Second drainage level
- Matching substrate elements with a height of 55 mm, see page 114
- Secure click system for fastening the drain connection fitting
- Suitable drain systems, see page 134

Also available with point drainage, see TUB-FINISH page 98

Adhesion with mounting adhesive COL-MK (see p. 22), consumption of COL-MK:

- Shower bases 900 x 900 mm = 1 cartridge,
- Shower bases 1200 x 900 mm = 2 cartridges,
- Shower bases 1600 x 900 mm = 3 cartridges

#### ■ Installation height (e.g. floor drain support horizontal with substrate element)

**Please note:** Dimensions in mm. Measures without adhesive coating and tiles.

## Substrate elements for TUB and TUB-LINE TUB-U

- Universal substrate elements:
  - For standard formats with shower bases
  - Simple shortening or cutting to size to other formats
  - including fillers for closing the unused openings
- Made to measure substrate elements:
  - For made to measure shower bases
  - including drain position cut to size

### ■ PRODUCT SPECIFICATIONS – LUX ELEMENTS®-TUB-U... (SUBSTRATE ELEMENTS)

## ■ Systems for wooden sub-constructions

**LUX ELEMENTS® shower base elements**, flush with the floor, flat shower base height, with separate drainage technology (point or linear drainage) for installation in and on wooden sub-constructions – ready for tiling!

### ■ General properties

	TUB-H	TUB-LINE H
For barrier-free construction	■	■
Height-adjustable drain system	page 130	page 117
Factory sealing, compliant with DIN 18534	■	■
Gate fitting frame, factory sealed	■	—
Floor channel drain, factory sealed	—	■
Prefabricated gradient	■	■
Flat shower base height	■	■
Second drainage level	■	■
Click system for fastening the drain connection fitting	■	■
Separate floor drain support, horizontal	from page 130	from page 134
Extensive accessories	page 133	page 135
Matching mounting accessories	from page 136	from page 136
Made to measure possible	■	■

### ■ Installation principle, general

- 1 Shower base element** – with flat shower base height, factory sealed, square or rectangular, with four-sided gradient, integrated and sealed floor drain system
  - Details design variants: page 117
  - Details format variants: page 117

- 2 Drain support** – horizontal (DN 50), simple, fast and safe mounting by means of click system without gluing or screwing
  - Details: from page 130 (point drainage)
  - Details: page 134 (linear drainage)

### ■ Installation heights

Dimensions in mm. Measures without adhesive coating and tiles.

#### Point drainage

TUB-H

#### Linear drainage

TUB-LINE H

■ Properties, point drainage

**Grates/grate fitting frames** – compatible with all LUX ELEMENTS®-TUB-RA... variants, standard and design – see page 131

**Design variants** – basic shape: square or rectangular, **gradient**: four-sided, **drain position**: corner or centre

**Special features**: also as TUB-COMBI-S BOL with slope and shortening area, e.g. as bath tub replacement system (see page 124)

■ Properties, linear drainage

**Cover rail / Floor channel drain** – dimensions: 70 x 650 mm, 70 x 750 mm or 70 x 850 mm, depending on the size of the shower base

**Special features**: reversible cover rail for two design variants (brushed stainless steel and tileable rear side), tiling aid for clean tiling, height adjustable from 5 – 17 mm using height adapter, with odour trap

**Design variants** – basic shape: square or rectangular, **gradient**: four-sided, **drain position**: on shorter side

**Special features**: also as TUB-LINE H BOL with slope and shortening area, e.g. as bath tub replacement system (see page 128)

Flush with the floor shower bases with separate drainage technology for installation in and on wooden sub-constructions

## TUB-H

- Factory sealing
- Sealed floor drain fitting frame
- Prefabricated gradient (four-sided)
- Flat shower base height: 15/30 mm
- For barrier-free construction
- Second drainage level
- Secure click system for fastening the drain connection fitting
- Suitable drain systems, see page 130–133

Also available with floor channel drain, see TUB-LINE H, page 126

**Please note:** A planning expert is to be consulted when intervening in components with load-bearing function. Furthermore, national guidelines and generally recognised codes of practice must be observed.

### ■ Installation height

**Please note:** Dimensions in mm. Measures without adhesive coating and tiles.

■ **PRODUCT SPECIFICATIONS – LUX ELEMENTS®-TUB-HEQ / -HMQ** Packaging specifications see p. 150 · Online calculator see p. 7 · \* standard-compliant according to DIN 18534

Flush with the floor shower bases with separate drainage technology for installation in and on wooden sub-constructions for the substitution of bath tubs

### TUB-H BOL

- Factory sealing
- Sealed floor drain fitting frame
- Prefabricated gradient (four-sided)
- Can be shortened in length through area without gradient
- Flat shower base height: 15/30 mm
- For barrier-free construction
- Second drainage level
- Secure click system for fastening the drain connection fitting
- Suitable drain systems, see page 130–133

Also available with floor channel drain, see TUB-LINE H BOL, page 128

#### Accessories (optional)

- Matching benches RELAX-BA from page 46

**Please note:** A planning expert is to be consulted when intervening in components with load-bearing function. Furthermore, national guidelines and generally recognised codes of practice must be observed.

- Shower base, can be cut to size

TUB-H BOL 1800/800 – can be cut to size to minimum 800 x 1200 mm

TUB-H BOL 1800/900 – can be cut to size to minimum 900 x 1200 mm

TUB-H BOL 1800/1000 – can be cut to size to minimum 1000 x 1200 mm

Shower area\* (slope area)

\*Please note: the fittings are to be located in the shower area

Flush with the floor shower bases with separate drainage technology for installation in and on wooden sub-constructions

## TUB-LINE H

- Shower bases for the use on wooden sub-constructions with integrated and sealed floor channel drain (70 x 650 mm, 70 x 750 mm or 70 x 850 mm)
- Factory sealing
- Prefabricated gradient (four-sided)
- Flat shower base height: 20/30 mm
- Reversible channel cover rail offers two design options
- Clean tiling with tiling aid
- Height-adjustable for optimum adaptation to covering thickness
- For barrier-free construction
- Second drainage level
- Secure click system for fastening the drain connection fitting
- Suitable drain systems, see page 134

Also available with point drainage, see TUB-H, page 120

**Please note:** A planning expert is to be consulted when intervening in components with load-bearing function. Furthermore, national guidelines and generally recognised codes of practice must be observed.

## ■ Drain technology and accessories

**TUB floor drain systems** – a general differentiation is made in the drain systems for the TUB shower bases between **free combinable systems** and **completely assembled systems** (from page 132).

### TUB combinable floor drain systems

- Floor drain supports – TUB-BA-...  
vertical or horizontal
- Grate fitting frame with standard grate – TUB-RA-S
- Grate fitting frame with design grate – TUB-RA-D...  
Design variants see page 67
- Drainage capacity in accordance with DIN EN 1253 [l/s]:  
Standard odour trap DN 50 vertical  
– TUB-BA-S with standard grate: 1,7 l/s  
– TUB-BA-S 100 with standard grate: 1,2 l/s  
Standard odour trap DN 50 horizontal  
– TUB-BA-W with standard grate: 1,0 l/s

### ■ PRODUCT SPECIFICATIONS – TUB COMBINABLE FLOOR DRAIN SYSTEMS

Packaging specifications see p. 152 · Online calculator see p. 7

	ARTICLE-NUMBER	ARTICLE-NAME / ARTICLE-DESCRIPTION	NOMINAL FORMATS/DIMENSIONS LENGTH x WIDTH	UNIT	PRICE / UNIT €
	LTUBE1102	TUB-BA-S, floor drain support DN 50 vertical, for 160 mm core drill hole, with odour trap		set	48,48
	LTUBE1103	TUB-BA-S 100, floor drain support DN 40/DN 50 vertical, for 100 mm core drill hole, with odour trap		set	48,48
	LTUBE1101	TUB-BA-W, floor drain support DN 50 horizontal, with odour trap		set	40,88
	LTUBE1100	TUB-RA-S, grate fitting frame made of ABS and standard stainless steel grate, universal height adjustment to suit tile thickness	external frame dimensions: 130 x 130 mm, grate: 120 x 120 mm	set	32,19

■ **PRODUCT SPECIFICATIONS – TUB COMBINABLE FLOOR DRAIN SYSTEMS**

Packaging specifications see p. 152 · Online calculator see p. 7

	ARTICLE-NUMBER	ARTICLE-NAME / ARTICLE-DESCRIPTION	NOMINAL FORMATS/DIMENSIONS LENGTH x WIDTH	UNIT	PRICE / UNIT €
	<b>LTUBE1104</b>	<b>TUB-RA-DA</b> , grate fitting frame made from ABS, with frame and design grate 'ANGOLO' made of stainless steel, universal height adjustment to suit tile thickness is possible	external frame dimensions: 132 x 132 mm, grate: 120 x 120 mm	set	101,57
	<b>LTUBE1105</b>	<b>TUB-RA-DC</b> , grate fitting frame made from ABS, with frame and design grate 'CUBE' made of stainless steel, universal height adjustment to suit tile thickness is possible	external frame dimensions: 132 x 132 mm, grate: 120 x 120 mm	set	111,96
	<b>LTUBE1106</b>	<b>TUB-RA-DM</b> , grate fitting frame made from ABS, with frame and design grate 'MARE' made of stainless steel, universal height adjustment to suit tile thickness is possible	external frame dimensions: 132 x 132 mm, grate: 120 x 120 mm	set	101,33
	<b>LTUBE1107</b>	<b>TUB-RA-DL</b> , grate fitting frame made from ABS, with frame and design grate 'LUMEN' made of stainless steel, universal height adjustment to suit tile thickness is possible	external frame dimensions: 132 x 132 mm, grate: 120 x 120 mm	set	101,37
	<b>LTUBE1108</b>	<b>TUB-RA-DV</b> , grate fitting frame made from ABS, with frame made of stainless steel and tileable cover 'VARI' made of stainless steel, universal height adjustment to suit tile thickness is possible, thickness of surface covering (tile and adhesive) for the shower tray minimum 5 mm, for the tileable covering 8 mm	external frame dimensions: 132 x 132 mm, cover: 110 x 110 mm	set	101,26
	<b>LTUBE1110</b>	<b>TUB-RA-DS</b> , grate fitting frame made from ABS, with frame and design grate 'Slot' made of stainless steel, universal height adjustment to suit tile thickness is possible, with locking system	external frame dimensions: 132 x 132 mm, grate: 120 x 120 mm	set	129,44
	<b>LTUBE1109</b>	<b>TUB-RA-DF</b> , grate fitting frame made from ABS, with frame made of stainless steel and tileable plastic cover, universal height adjustment to suit tile thickness is possible, with locking system, thickness of surface covering (tile and adhesive) for the shower tray minimum 14 mm, for the tileable covering 11 mm	external frame dimensions: 132 x 132 mm, cover: 110 x 110 mm	set	152,35
	<b>LTUBE1001</b>	<b>TUB-RA-A</b> , grate fitting frame made of ABS plastic, including standard stainless steel grate 120 x 120 mm, overall height 85 mm, universal height adjustment to suit tile thickness is possible	external frame dimensions: 130 x 130 mm; frame height: 9 mm	set	43,80

To fit all LUX ELEMENTS®-TUB-shower base elements and shower drain element TUB-MQ-SET 300 · Thickness of surface covering (tile and adhesive): TUB-RA-S/DA/DC/DM/DL/DS: for the shower tray: minimum 5 mm / TUB-RA-DV: for the shower tray: minimum 5 mm / for the tileable covering: 8 mm / TUB-RA-DF: for the shower tray: minimum 14 mm / for the tileable covering: 11 mm · **Please note:** Flow capacity when using design grates and/or accessories, see data sheet TUB.

## TUB complete floor drain systems

- Set consisting of standard grate with grate fitting frame and vertical or horizontal floor drain support
- Simple to mount
- Drainage capacity in accordance with DIN EN 1253 [l/s]:
  - Standard odour trap DN 50 vertical
    - TUB-BAS-S with standard grate: 1,7 l /s
    - TUB-BAS-S 100 with standard grate: 1,2 l /s
  - Standard odour trap DN 50 horizontal
    - TUB-BAW-S with standard grate: 1,0 l /s

### ■ PRODUCT SPECIFICATIONS – TUB COMPLETE FLOOR DRAIN SYSTEMS

Packaging specifications see p. 152 · Online calculator see p. 7

	ARTICLE-NUMBER	ARTICLE-NAME / ARTICLE-DESCRIPTION	NOMINAL FORMATS/DIMENSIONS LENGTH x WIDTH	UNIT	PRICE / UNIT €
	<b>LTUBE1180</b>	<b>TUB-BAS-S</b> , floor drain support DN 50 vertical, for 160 mm core drill hole, with odour trap, incl. grate fitting frame made of ABS and standard stainless steel grate, universal height adjustment to suit tile thickness	external frame dimensions: 130 x 130 mm, grate: 120 x 120 mm	set	74,42
	<b>LTUBE1193</b>	<b>TUB-BAS-S 100</b> , floor drain support DN 40/DN 50 vertical, for 100 mm core drill hole, with odour trap, incl. grate fitting frame made of ABS and standard stainless steel grate, universal height adjustment to suit tile thickness	external frame dimensions: 130 x 130 mm, grate: 120 x 120 mm	set	74,42
	<b>LTUBE1184</b>	<b>TUB-BAW-S</b> , floor drain support DN 50 horizontal, with odour trap, incl. grate fitting frame made of ABS and standard stainless steel grate, universal height adjustment to suit tile thickness	external frame dimensions: 130 x 130 mm, grate: 120 x 120 mm	set	66,90

To fit all LUX ELEMENTS®-TUB-shower base elements and shower drain element TUB-MQ-SET 300

Please note: Flow capacity when using design grates and/or accessories, see data sheet TUB.

## TUB floor drain systems accessories

- To fit all LUX ELEMENTS®-TUB-floor drain systems (TUB-BAZ HS does not fit TUB-COMBI MQ SET 300)
- Impact sound insulating mat for the reduction of noise nuisance caused by running water, e.g. in bathrooms of apartment blocks, nursing homes and hotels: TUB-TSM
- Fire protection set for more safety: TUB-BAS-S FIRE STOP

### ■ PRODUCT SPECIFICATIONS – TUB FLOOR DRAIN SYSTEMS ACCESSORIES

Packaging specifications see p. 152 · Online calculator see p. 7

	ARTICLE-NUMBER	ARTICLE-NAME / ARTICLE-DESCRIPTION	NOMINAL FORMATS/DIMENSIONS LENGTH x WIDTH x HEIGHT	UNIT	PRICE / UNIT €
	<b>LTUBE1 188</b>	<b>TUB-BAZ STOP</b> , odour, foam and vermin barrier; can also be retrofitted to existing installed drains		piece	62,97
	<b>LTUBE1 189</b>	<b>TUB-BAZ HS</b> , removable hair trap		piece	21,47
	<b>LTUBE1 200</b>	<b>TUB-BAZ DN 50/40</b> , reducer, DN 50 to DN 40, with lip seal		piece	11,61
	<b>LTUBE1 190</b>	<b>TUB-BAZ BST</b> , adapter, DN 50 to British Standard		piece	11,49
	<b>LTUBE1 192</b>	<b>TUB-BAZ HTK</b> , elbow, DN 50, swivel joint 0–87° (infinitely variable)		piece	8,90
	<b>LTUBE1 197</b>	<b>TUB-BAS-S FIRE STOP</b> , floor drain support DN 50 for 160 mm core drill hole, vertical, with odour trap, incl. grate fitting frame made of ABS and standard stainless steel grate, incl. adapter part TUB-BAZ VER and fire-protection component	external frame dimensions: 130 x 130 mm, grate: 120 x 120 mm	set	234,46
	<b>LTUBE1 198</b>	<b>TUB-BAZ DGD</b> , conduit seal for core drill hole in diameter 160 mm, with fire protection in conjunction with TUB-BAS-S FIRE STOP		piece	153,79
	<b>LTUBE1 191.6</b>	<b>TUB-TSM 6</b> , impact sound insulating mat 6 mm for LUX ELEMENTS flush with the floor shower base elements	1250 x 1250 x 6 mm	piece	57,94
	<b>LTUBE1 191.12</b>	<b>TUB-TSM 12</b> , impact sound insulating mat 12 mm for LUX ELEMENTS flush with the floor shower base elements, for elevated requirements	1250 x 1250 x 12 mm	piece	83,80

To fit all LUX ELEMENTS®-TUB-floor drain systems (TUB-BAZ HS does not fit TUB-COMBI MQ SET 300)

## Mounting accessories for TUB and TUB-LINE **TUB-KIT**

- Necessary mounting material for installation in one kit
- Three variants, tailored to the shower base size
- Cut protection tape DRY-SB see page 24, further mounting material from page 20

### Fixing adhesive – COL-AK

- Ready-mixed dry mortar
- For the attachment, levelling and adhesion of LUX ELEMENTS® hard foam support elements
- Stable, fast bonding, waterproof
- Low on chromate in accordance with EC directive 2003/53/EC

### Sealing filler – DRY-ASK

- Single-component, water-impermeable, crack-bridging and flexible sealing compound
- For large seals on LUX ELEMENTS® hard foam support elements

### Sealing tape – DRY-DB

- Extremely thin, tear-resistant, elastic and vapour-permeable special tissue
- For connection sealing in conjunction with DRY-ASK sealing filler or shower bases
- For wall/floor connections, inner corners, outer corners

## Data protection information for business partners

Revised August 2018

### Our handling of your data and your rights

Information according to articles 13, 14 and 21 of the General Data Protection Regulation (GDPR)

In accordance with the EU General Data Protection Regulation (GDPR) valid from 25 May 2018, we wish to take the opportunity with this data protection information to inform you, our business partners, about how we process your personal data and about your rights. This information will be updated whenever necessary and published on [www.luxelements.com](http://www.luxelements.com), where you will also find our data protection information for visitors to our website.

### 1. Who is responsible for the data processing and who is the Data Protection Officer?

Responsible is: LUX ELEMENTS GmbH & Co. KG  
An der Schusterinsel 7  
D - 51379 Leverkusen  
Tel.: +49 (0) 21 71 / 72 12-0  
Fax: +49 (0) 21 71 / 72 12-40  
E-Mail: [info@luxelements.de](mailto:info@luxelements.de)

Our Data Protection Officer Julia Lux can be contacted at the above address or by e-mail to [datenschutz@luxelements.de](mailto:datenschutz@luxelements.de). The contact data are also available online at:

<https://www.luxelements.com/lux/impressum.htm#datenschutz>

### 2. What sources and data are used?

LUX ELEMENTS GmbH & Co. KG processes data that it obtains from the business relationship with you, for example in the context of the handling of customer contracts, personnel and supplier administration, and attendance to commercial agents and prospective customers.

Specifically, the following data in particular are processed:

- identifying data (e.g. name, address and contact data of the business partner, bank account details)
- information on the risk profile of the business partner, including creditworthiness and financial solvency as well as information in accordance with the suitability declaration
- data connected with the execution of the specific order
- tax-relevant data
- contract data for other correspondence (e.g. correspondence with you)
- advertising and sales data (e.g. products and services that are potentially of interest to you)

### 3. What is the purpose of the processing of my data and what is the legal basis for this?

LUX ELEMENTS GmbH & Co. KG processes your data on the following legal basis and for the purposes listed below:

#### 3.1 For the fulfilment of contractual obligations (Article 6, section 1 b) GDPR)

Your data are processed in order to execute our contracts with you, i.e. for example for the carrying out of the service ordered. The purposes of the data processing depend in detail on the specific service and the contract documents.

#### 3.2 In the context of the weighing of interests (Article 6, section 1 f) GDPR)

In addition, your data may be used on the basis of a weighing of interests to protect our justified interests or those of third parties. This takes place for the following purposes:

- general business management and the further development of services, systems and products
- fulfilment of internal requirements and the requirements of our affiliated companies, insurance, checking or administration purposes

- guaranteeing IT security and IT operation
- advertising, market and opinion research
- assertion of legal claims and defence in legal disputes
- prevention and solving of crimes as well as risk management and prevention of fraud

The interest of LUX ELEMENTS GmbH & Co. KG in the respective processing arises from the respective purposes and is otherwise of a business nature (efficient fulfilment of tasks, sales, avoidance of legal risks).

If the specific purpose allows, LUX ELEMENTS GmbH & Co. KG processes your data in pseudonymised or anonymised form.

#### 3.3. On the basis of your consent (Article 6, section 1 a) GDPR)

If you have given your consent to the processing of personal data, the respective consent is the legal basis for the processing mentioned there.

In addition, you may have consented to being contacted by e-mail or telephone for advertising purposes.

You can revoke your consent at any time with effect for the future.

This also applies to declarations of consent that you have made to LUX ELEMENTS GmbH & Co. KG before the coming into force of the GDPR, i.e. before 25 May 2018. The revocation applies only to future processing.

#### 3.4. On account of legal regulations (Article 6, section 1 c) GDPR)

LUX ELEMENTS GmbH & Co. KG is subject to various legal obligations, i.e. legal requirements (e.g. technical checking regulations, industrial health and safety regulations, money laundering laws, tax laws).

The purposes of processing include the checking of identity and age, the prevention of fraud and money laundering, accounting, the evaluation and control of risks (including the creation of a risk profile for business partners, as well as the checking of creditworthiness and the fulfilment of checking and reporting obligations under tax laws).

### 4. Who receives my data?

LUX ELEMENTS GmbH & Co. KG passes on your data only in compliance with the GDPR and the BDSG (German Federal Data Protection Act). Within LUX ELEMENTS GmbH & Co. KG, your data is received by those bodies that require it in order to fulfil the contractual and legal obligations or to fulfil their respective tasks (e.g. Sales, Marketing and Accounts).

In addition, the following bodies may receive your data:

- processors (Art. 28 GDPR) employed by us, in particular in the fields of IT services, logistics, disposal and printing services, who process your data for us according to our instructions
- public bodies and institutions where there is a legal or official obligation
- our respective employees, advisers, representatives, proxies, accountants, service providers
- other bodies for whom you have given us your consent to be given your data

### 5. How long will my data be stored?

We delete your personal data as soon as it is no longer required for the aforementioned purposes. After the termination of the business relationship your personal data will be stored if we are legally obligated to do so. This arises from legal verification and archiving obligations, which are governed among others by the German Commercial Code and Fiscal Code. Accordingly, storage periods may be up to ten years. In addition, it may be the case that personal data is stored for the period during which claims may be asserted against us (legal statute of limitations of three or up to thirty years).

### 6. Are data transmitted to a third-party country or an international organisation?

Your data are transmitted to states outside of the European Economic Area – EEA (third countries) only if this is necessary for the execution of your orders or is legally prescribed or if you have given your consent thereto.

### 7. What other data protection rights do I have?

Under the respective legal conditions, you have the right to information (Article 15 GDPR), to correction (Article 16 GDPR), to deletion (Article 17 GDPR), to restriction of the processing (Article 18 GDPR) and to data transferability (Article 20 GDPR).

In addition, you have the right to complain to a data protection supervisory authority (Article 77 GDPR).

You can assert these rights centrally against LUX ELEMENTS GmbH & Co. KG.

The responsible supervisory authority is the State Officer for Data Protection and Freedom of Information for North Rhine-Westphalia:

Landesbeauftragte für Datenschutz und Informationsfreiheit

Nordrhein-Westfalen

Postfach 20 04 44

D - 40102 Düsseldorf

Tel.: +49 (0) 211 / 3 84 24-0

Fax: +49 (0) 211 / 3 84 24-10

E-Mail: [poststelle@ldi.nrw.de](mailto:poststelle@ldi.nrw.de)

### Right of objection

**You have the right to object to the processing of your personal data for the purposes of direct advertising without giving reasons. If we process your data for the protection of justified interests, you can object to this processing for reasons arising from your particular situation. We will then no longer process your personal data unless we can prove that there are compelling reasons worthy of protection for the processing that outweigh your interests, rights and freedoms or that the processing serves the assertion or exercising of, or defence against legal claims.**

### 8. What data protection rights can I assert as the person affected?

Within the framework of our business relationship you need only provide such personal data as are necessary for the establishment, conduction and termination of a business relationship or to whose acquisition we are legally obligated.

## General terms and conditions LUX ELEMENTS GmbH & Co. KG

Released December 2017

### I) General

1. LUX ELEMENTS GmbH & Co. KG (the Seller) accepts and executes all orders exclusively based on the following terms and conditions.
2. The Buyer accepts these terms and conditions by placing his order. Conflicting purchase terms of the Buyer shall only be binding if accepted by the Seller in writing.
3. Ancillary verbal agreements including discounts, bonuses and dispositions shall only be valid if confirmed in writing by the Seller.

### II) Terms of delivery

1. Deliveries are made at the Seller's discretion from the Leverkusen plant or from the Seller's warehouse. Deliveries are at the Buyer's risk if the Buyer is a Merchant and in any case to the account of the Buyer.
2. If the Buyer does not accept the goods at the agreed time, the Seller shall be entitled to withdraw from the delivery contract after setting a one-week acceptance period. The provisions of the German Civil Code (BGB) regarding default of acceptance shall remain unaffected.
3. If, at the request of the Buyer, the Seller takes back any goods as a gesture of goodwill, the Buyer shall bear the return freight. For the processing and handling of the goods, 15 percent of the goods' net value shall be deducted from the credit note to be issued by the Seller. Only goods from the currently valid product range can be returned, with the exception of construction chemical products and custom-made products.

### III) Delayed delivery

1. All sales are subject to the timely supply to us by our suppliers. This does not apply if the Seller is responsible for the delay.
2. In case of force majeure, in particular labour disputes, official intervention and operational breakdowns for which the seller is not responsible, the delivery period shall be extended by the duration of the disruption provided that it does not take an unreasonably long time. In case of delays beyond this time, the parties shall mutually agree whether to adhere to or cancel the contract. The buyer shall not be entitled to claim damages in this regard.
3. In the event of delay of the Seller, the Buyer shall grant a period of grace of 10 days unless a firm deal has been agreed upon. This grace period can be set in writing earliest after the expiry of the delivery period.

In the event of delayed delivery, claims for damages due to default shall be excluded in cases of ordinary negligence, if the Buyer is a Merchant, and it is not a firm deal. In any event, in the case of slight negligence, the liability for damages shall be limited to the foreseeable losses.

### IV) Warranty

1. The warranty period shall be one year if the Buyer is a Merchant. The Seller will meet its warranty obligation by means of replacement.
2. The Seller shall not be liable for any consequential loss or damages. This shall not apply for consequential damages arising from injury to life, body or health; or which can be attributed to gross negligence, intent or breach of a substantial contract obligation (cardinal obligation); or in case of damages resulting from a failure to achieve warranted characteristics, quality or durability guarantees. If the Seller is liable for consequential damages and the Buyer is a Merchant, the liability of the Seller shall be limited to the foreseeable losses if the damage arises from the negligent breach of a substantial contract obligation (cardinal obligation).
3. If goods such as joint sealing materials are sold as per sample, the guarantee is limited to the professional compliance with the sample.
4. The information provided in the Seller's datasheets is based on the state of knowledge at the time when the datasheets were issued. They are solely intended to describe the products with view to safety requirements. They do not constitute any assurance of delivery specifications.
5. The instructions for use issued by the Seller should be considered a general guide only. Given the diversity of uses of each product and

taking into account the specific application situation, the Buyer shall be responsible to conduct its own trials.

6. Buyers intending to resell the goods received from the Seller take the sole responsibility for the correct packing, classification and marking of hazardous substances, see art. 15 GefStoffV (German Ordinance on Hazardous Substances). In particular the Buyer shall not be entitled to any claims if the packing, classification or marking provided by the Seller does no longer comply with the current regulations as a result of legal changes made after the delivery of the goods. The Seller explicitly does not assume any obligation to provide information on such legal changes.

7. The same (6) shall apply if goods of the Seller are packed using packing material of the Buyer. In this case the Buyer takes the entire responsibility for the packing and marking. As regards insufficient packing and/or marking, the Buyer shall indemnify the Seller from all third party claims.

### V) Terms of payment

1. The invoice is issued on the day of despatch or availability of the goods after receipt of the delivery note. Unless otherwise agreed, the price shall be calculated based on the prices in effect on the day of delivery.
2. Invoices shall be payable within 14 days of the invoice date after deducting a discount of 2 percent or within 30 days net.
3. The offsetting against counter-claims shall not be permitted unless the Buyer's claims are undisputed or have been determined as legally binding.
4. A significant deterioration of the Buyer's financial situation shall entitle the Seller, with no prejudice to any other rights, to execute the remaining orders on a delivery against payment basis. Under the same preconditions, the Seller's claims for payment from previous deliveries shall become due for immediate payment.
5. Merchants shall be entitled to the right of retention arising from alleged deficiencies of the goods only if the deficiencies of the goods are undisputed or have been determined as legally binding. In all other instances, the Buyer may demonstrate the deficiency of the goods supplied through a professional opinion which is not arbitration opinion and which has been provided by a publicly appointed and sworn expert whereupon the Seller remains free to raise objections to this opinion.

### VI) Retention of title

1. The Seller shall retain title to the delivery items until complete payment of the purchase price. If the Buyer is a Merchant, the Seller shall in addition retain title to the delivery item until all its claims against the Buyer arising out of the entire business relationship have been settled.
2. In the event the goods supplied are processed or combined with other material, the Seller shall become co-owner of the new manufactured items in the ratio the value of goods subject to retention of title bears to the value of the new items so resulting from the production process. The time of such processing decides upon the value of the goods subject to retention of title as well as the value of processing. During the processing, the Buyer shall act on behalf of the Seller without, however, acquiring any entitlement against the Seller as a result of the processing. The Buyer is obliged to store the goods subject to retention of title carefully on behalf of the Seller. If the Seller does not obtain co-ownership of the combination of several items, the Buyer shall already transfer a co-ownership share in accordance with the provisions of section 6 no. 2 sentences 1 and 2. The required declarations of intent are already being executed.
3. Where the new product is resold by the Buyer, the Buyer's claim to the purchase price shall, by way of security, take the place of the product in accordance with the provisions of section 6 no. 2 sentences 1 and 2. The Buyer shall assign the claims to the purchase price on a pro-rata basis to the Seller who hereby accepts the assignment.
4. If the Buyer re-sells the unprocessed goods, the Buyer shall hereby

assign all claims, including any ancillary rights, to the Seller up to the amount of his claims. The Seller hereby accepts the assignment.

5. The amounts collected are to be transferred to a separate account for the benefit of the Seller.
6. If the value of the securities exceeds the Seller's claims by more than 10 percent, the Seller shall, at the request of the Buyer, release the exceeding amount of the securities to the Buyer.
7. The Buyer shall inform the Seller immediately in writing if an attachment is enforced upon the goods subject to retention of title or upon goods in the co-ownership of the Seller or upon claims transferred to the Seller by way of an advance assignment. The Buyer must inform the enforcement authority and the judgment creditor without delay that the goods are subject to retention of title or co-owned by the Seller or the fact that the claim has been assigned to the Seller.

### VII) Place of performance and jurisdiction

1. Place of performance for all goods and services arising from this supply contract is the domicile of the Seller's commercial establishment.
2. For Merchants, the place of jurisdiction for all obligations of the parties (including actions on bills of exchange or cheques) is Leverkusen.

### VIII) Applicable law

The purchase contract shall be subject to German law to the exclusion of the United Nations Convention on Contracts for the International Sale of Goods of 11 April 1980.

### IX) Final provisions

The invalidity of one or more provisions of these terms and conditions shall in no way affect the validity of the remaining provisions.
